CLEAME CMON Exclusive Model

STORY

CLEAME CMON's Journey

Environmental Management System Certification (ISO 14001)
 Quality Management System Certification (ISO 9001)
 Certified as an Excellent Company for Technological Capability
 Bio Food Waste Reducer Certification
 Direct Production Certificate (in-house factory, in-house production)
 No. 1 in Consumer Preference for 6 Consecutive Years (2017-2022)
 Opened HQ-run showroom in Jeju & aired TV commercials
 World's first hybrid microbial method developed & launched (fermentation + maturation)
 Products registered on PPS Nara Market & School Market
 Qualified for competitive bidding at the Public Procurement Service
 Nationwide directly-run A/S centers (Central, Daejeon, Honam, Jinju, Yeongnam, Jeju)
 Supply contract with Hyundai Dept. Store Group (incl. Hyundai Green Food, Hyundai Motor Service)
 Executive member (Chair) of the Korea Food Waste Bio Reducer Association
 Company renamed from EZ Clean Co., Ltd. to CLEAME CMON Co., Ltd.
 Trademark application & registration

Appeared on KBS 'Good Morning Korea'
 Featured on KNN News
 Appeared on MBN 'Idea Plus'
 Selected as Excellent Product by Electronic Times
 KC electrical safety & radio wave certification
 Test report obtained for the microbial decomposition method
 Technology partnership with a Japanese environmental biotechnology institute
 Patent filed & registered for a microbe-based food waste decomposition device
 Company & factory established: EZ Clean Co., Ltd.

Microbial Decomposition Method

Food waste!!
Now treat it yourself with microbial decomposition!!

**Automatic
Mixing**

Operates automatically
24 hours a day
(unmanned system)

**Microbial
Decomposition**

Microbes break the
waste down into liquid

**Wastewater
Discharge**

Wastes Control Act
Enforcement Rule, Art.
10-4: less than 20/100
discharged

**Solid Waste
Discharge**

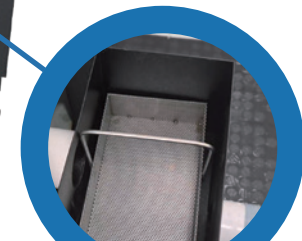

Wastes Control Act
Enforcement Rule,
Annex 5, No. 2(c)3:
by-product moisture
content under 40%

Food Waste Input

Microbes & Carrier

Solid Waste Collector

Unrivalled technology that turns food waste into water and soil

World's First Hybrid Microbial Decomposition Method **CLEAME CMON Commercial Food Waste Processor**

Breaking food waste down into water and soil, we put true resource circulation into practice.

CLEAME CMON's commercial food waste processor discharges its final by-product as compost. It has obtained a fertilizer (compost) test certificate from the NH Livestock Research Institute, Korea's most authoritative and trusted fertilizer testing body, confirming that the by-product can be used as compost. Under the Wastes Control Act, it can therefore be used as compost.

POINT

01

Just add food waste - that's it!

Whenever food waste is generated, just put it in the machine - **soup and all, anytime**. Microbes decompose it naturally and discharge it automatically in a 24-hour unmanned automatic system!!

The world's first smart, convenient commercial food waste processor!

POINT

02

Even your monthly food waste fee is 0 won!

Install a CLEAME CMON microbial decomposition commercial food waste processor and no separate food waste disposal fee is incurred.

Process waste right in the kitchen whenever it is generated - truly convenient!

Put it in with the soup - so convenient!

Add waste anytime - completely convenient!

Wet discharge means no odor - the most convenient in the world!

Patented self-propagating microbes need no replenishing - 0 won for regular microbe purchases!

POINT

03

Outdoor installation OK!

A rain shelter can be installed for outdoor use!!

Free Nationwide On-site
Consultation Before Contract

1566-7749

(Request your free
visit consultation!)

Disposal fees paid for outsourced treatment
Outsourced Collection

Delivered to a food waste
facility

Illegal treatment
Illegal landfilling

VS

Self-disposal: 0 won in fees
CLEAME CMON

Final wastewater is sent
through sewer pipes to the
local sewage treatment plant

Final by-product is recycled as
compost for flower beds and
gardens

For Large Generators

S P E C	LF-1	Microbial Decomposition	Based on 120L bin	 1/3 bin	890*610*950	220v-60hz
	LF-2	Microbial Decomposition	Based on 120L bin	 1/2 bin	990*710*950	220v-60hz
	LF-3	Microbial Decomposition	Based on 120L bin	 1 bin	1110*710*950	220v-60hz
	LF-4	Microbial Decomposition	Based on 120L bin	 1.5 bins	1210*810*950	220v-60hz
	LF-5	Microbial Decomposition	Based on 120L bin	 2 bins	1510*810*950	220v-60hz
	Compost Maker	Microbial Decomposition	5L (based on by-product collected from the CLEAME CMON commercial food waste processor)		330*500*700	220v-60hz

For Small Businesses

Standard MINI

Two designs, perfect for small, narrow kitchens

Food waste cost: 0 won!

1. MINI - Overwhelmingly compact!!

2. LF - Built into the sink!!

POINT 01

Outstanding Economy

- Zero food waste fees
- Refrigerator-level electricity costs

POINT 02

Superior Convenience

- 24-hour automatic processing
- Add waste anytime, soup and all
- Processed right in the kitchen

POINT 03

Clean, Hygienic Kitchen

- Processing right in the kitchen keeps it clean

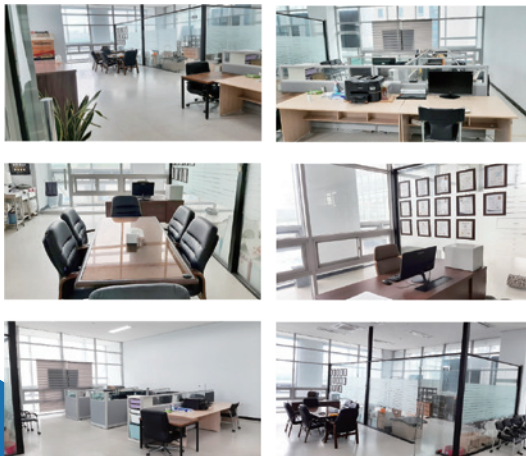

Sink-Integrated LF

Where it can be used

Sites that are not large-volume generators under the Wastes Control Act

- Small restaurants, cafes, snack bars: reported business area under 200 m2
- Bakeries, pubs, bars, karaoke rooms, PC rooms
- Group catering facilities: fewer than 100 meals served per day (kindergartens & daycare centers: fewer than 200) (hospitals, schools, military units, companies, etc.)
- Social welfare facilities: nursing homes, facilities for the disabled, free meal centers, day care centers, senior towns, etc.
- Religious facilities: churches, cathedrals, temples, etc.

S P E C	Model	Treatment Method	Capacity / Day		Size	Power
	MINI	Microbial Decomposition	Based on 120L bin 	1/3 bin	550*550*700	220v-60hz
	LF				662*700*850	

Headquarters

Located in Dongtan Techno Valley, Hwaseong
R&D Team / Sales Team / Marketing Team
